

25 March 1966

MEMORANDUM FOR : Registrar, Office of Training

SUBJECT : Army War College Nomination

1. In the course of discussions here concerning [REDACTED] student status, I may have negotiated (preliminary) a second slot for the organization.

25X1A9a

2. We all agree here that [REDACTED] cannot from a practical standpoint represent two organizations. It's a case of either/or. The close community life (unlike the NWC or ICAF) precludes his playing a double role - student body and community. To attempt such would also be a disservice to our organization's image and professionalism. Most outsiders, military included, would consider this type compromise either lack of professional judgement, poor security practices, or simply an absence of discipline.

25X1A9a

3. If [REDACTED] or yourself elect to enroll under the auspices of his adopted organization, with a complete follow-through with no reference to his true status, then it's agreed here that you should send a second man to fill the vacuum and preclude conjecture which would result from our lack of representation.

25X1A

4. In any event, the school advises that final authority for these matters rests in the Department of the Army at the Pentagon.
